**6:05pm Chairman Clow called the meeting to order**

The Board held this special meeting to discuss the 2008 budget due mainly to concern that the Police Department may be well over its appropriated amounts. It was a chance for the Board to assess the status of some of the other Departments as well. The Town Administrator reported that most likely all Departments will be very close to their budget amounts by year end, but his main concern is with the Police Department since the Chief has informed him that he will most likely be \$50,000 over on his bottom line, mainly due to excessive overtime expenses.

The Board directed the Town Administrator to sit down with all the Department Heads and go through their budgets to determine where they will be over and where they might have funds left over at the end of the year.

**Meeting adjourned at 8:10 PM**

A True Record.
